Comprehensive Program Review Report (Narrative)
College of the Sequoias
Program Review - Kinesiology

Program Review - Kinesiology

Prepared by: Rusty Smith

What are the strengths of your area?:
1. The faculty C. Allen, M. Bolt, I. Panky and R. Smith bring a vast amount of experience and knowledge to the kinesiology program.
2. The curriculum is small, however, we offer courses unavailable at many other community colleges in the region.
3. All kinesiology courses are transferable to the CSU system.

What improvements are needed?:
1. Our successful course completion rate of 70% is slightly below the state average of 74% according to the 2015-2025 COS master plan.
2. Our efficiency WSCH/FTEF of 360 is lower than the statewide benchmark of 525. We need to find a way to promote these classes to fill to the maximum.

Describe any external opportunities or challenges:
The biggest challenge is the change of the TOP code from PE to KIN. KIN is unfamiliar to the COS general student body. We feel that since the general student body is unfamiliar with the word "kinesiology", we would like to explore the option of changing either our PEAC courses to KIN or vice versa.

Overall Outcome Achievement:
85% of the students successfully achieved the established benchmarks related to our Student Learning Outcomes. Since we have a smaller course offering (5 courses are offered), we are mobile enough to alter SLO’s or add new ones unit wide. This

Changes based on outcome:
Although Kinesiology had a strong showing of student success regarding Student Learning Outcomes, based on conversation with the Kinesiology instructors we felt a need to explore additional Student Learning Outcomes.

Outcome cycle evaluation:
The unit of kinesiology is due for evaluation year 2015-’16. We are currently in year two of a three year cycle.

Action: Explore change of top code.
Research and discuss the viability of changing the top code of KIN to PEAC or vice versa.

Start Date: 10/08/2014
Completion Date: 07/01/2015
Status: New Action

Identify related course/program outcomes:
This action is tied to PLO for "creating a plan for life-long wellness."

Person(s) Responsible (Name and Position): Rusty Smith

Rationale (With supporting data):
Our current efficiency data is at 360 when the state benchmark is at 525 according to the 2015-2025 COS master plan. It is possible that a change of top code will help market our course offerings.
Priority: Medium
Safety Issue: No
External Mandate: No

Add Resource Request for Action

</table>

Action: Improve student success.
Take this year to find out reasons success rates are under state average.

Start Date: 10/08/2014
Completion Date: 07/01/2015
Status: New Action

Identify related course/program outcomes:
Related to "students will create a plan for life-long wellness."
Person(s) Responsible (Name and Position):

Rationale (With supporting data): According to the 2015-2025 COS master plan, our students are successfully completing at a 70% mark compared to the statewide average of 74%. Find out if other schools you PEAC as top code and if that is inflating their numbers.

Safety Issue: No

External Mandate: No
