Bethany distributed a calendar of meetings.

Kristin reported that Proposals 1-6, and 8 were sent to Jennifer LaSerna and Stan Carrizosa for submission, and that the Subgroup members were cc’d on the email.

Kristin distributed hard copies of the Proposal 8 to people that needed them.

The Subgroup then had a discussion on IntelliResponse. The members reviewed the IntelliResponse Higher Education Page (and videos). The Subgroup membership then reviewed and made changes to the Draft Proposal. Possible funding sources were discussed. For the initial proposal, it is going to be suggested that the Essential Learning Initiative process and the Title V Process be used. For ongoing funding, it was suggested that we ask the COS Foundation to support the ongoing costs.

Library: Milena and Darcy reported that they had been looking at library statistics of all kinds. There was discussion that plans to address the Recommendations need to be done with current resources.

Karen distributed IIBC from Merced College. She pointed out how succinct the responses to the Recommendations were written.

A discussion ensued about campus dialogue and campus climate. The difference in everyone agreeing on everything was different than healthy discussion and communication. This will be brought up at Senior Management on Thursday and perhaps needs a greater discussion at the Response Task Force Meeting.
