SUBJECT AREA AND COURSE NUMBER: SMED 182

COURSE TITLE: ATHLETIC TRAINING CLINICAL 2

UNITS/HOURS Units: 2

CATALOG COURSE DESCRIPTION: A clinical practicum course provides the athletic training student with the knowledge and skills necessary to recognize and manage sport trauma and sports-associated illness. This course will prepare students to assist in sustaining life following traumatic injury, reducing pain, and minimizing the consequences of injury or sudden illness in the athletic college setting under the supervision and assistance of a Certified Athletic Trainer.

OUTCOMES:

1. Describe respiratory tract illness common to athletes.
2. Explain what a coach should do with an athlete who has suffered a concussion.
3. Describe how to avoid problems with the diabetic athlete.
4. Explain the causes, prevention and care of the most common skin infections in sports.
5. Assess the types of shock and their management.
6. Explain the importance of knowing cardiopulmonary resuscitation (CPR/ADE Professional Rescuer) and how to manage an obstructed airway.
7. Describe how maintain hydration during athletic computation.
