cos.edu/CTE

### Automotive Specialty Technician

The Automotive Technology program guides students through several areas of study in the auto field, including air conditioning, brake systems, emissions technology, powertrain systems and much more. Our program offers seven Skills Certificates and an Associate of Science degree students can work toward.

8 degrees/certificates

“

I enjoy a lot of things about the COS Automotive program, but the best part has been gaining the knowledge and skills I need to pursue a career in a field I really enjoy.

”
