COS.EDU

MISSION STATEMENT

Sequoias Community College District provides excellent higher education in a spirit of equity for our diverse student population. We believe in students achieving their full educational potential and support student success in attaining a variety of degrees and certificates, from basic skills to transfer education and workforce development.

Reaffirmed by the Board of Trustees on March 8, 2021 Mission Statement

VISION STATEMENT

The entire College of the Sequoias community works in an environment of mutual respect to realize the following vision:

COS students will achieve their full educational potential regardless of race, ethnicity, age, gender, sexual orientation, immigration status, ability, culture, religion, and learning modality.

The COS environment will create a positive attitude among COS employees that carries over to the students and into the community.

COS will remain a community leader whose high standards positively impact the lives of the population it serves.

COS will align educational programs for higher education transfer, as well as to meet the constantly emerging economic and workforce development needs of the community through partnerships with business, government, industry and labor.

ABOUT COLLEGE OF THE SEQUIOAS

College of the Sequoias is a two-year community college with an enrollment of about 14,000 students that offers educational and enrichment programs for the residents of its district in Tulare and Kings counties. The college district was established in 1926 and moved to its current 62-acre campus in Visalia in 1940. In addition to the Visalia campus, COS operates a college center in Hanford, opened the newest college center in Tulare, and conducts classes at various locations throughout communities in the district. College of the Sequoias is a member of the American Association of Community Colleges and the Community College League of California. The college is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education. The college is approved by the United States Immigration and Naturalization Service to accept international students and is approved for veteran training under state and federal laws.

THE ALL-NEW COS ALUMNI NETWORK

*Giant things are
happening for COS alumni!*

The College of the Sequoias Foundation and the new COS Alumni Network are proud to provide new and old alumni with the services and benefits they need to become the next generation of COS success stories.

Register today for the new COS Alumni Network to stay connected with your GIANT family and to take advantage of exclusive GIANT alumni benefits! It's FREE!

FREE COS Alumni Benefits

- **Alumni Career Services**
Grow your network and your career!
- **Sign up costs nothing**
- **E-newsletter** *Stay up-to-date on the latest COS and alumni news and events*
- **Online Communities** *Stay connected on Facebook & LinkedIn*
- **GIANT Gear** *Stand tall and show your GIANT pride!*
- **New Benefits are in Development!**

Register now to take advantage of exclusive alumni benefits and career services that are available only to GIANT alumni family members!

THE ACADEMIC DRESS

In 1895 colleges and universities in the United States adopted a uniform code for academic dress, and this code is followed today.

CAP- The cap is the “mortarboard” type with black cloth cover. The gold tassel may be worn by holders of the doctor’s degree. There is no general rule for position of the tassel on the mortarboard. Some institutions, during commencement exercises, require undergraduate candidates for degrees to wear the tassel on the right front side before degrees are conferred and shift them to the left at the moment degrees are awarded. In some respects this custom is a substitute for individual hooding.

GOWN- The bachelor’s, master’s and doctor’s gowns differ slightly in pattern. Only the doctor’s gown bears trimmings. These consist of a velvet facing down the front and three velvet bars across each sleeve.

HOOD- The color or colors in the lining are those of the college or university which granted the degree. The binding or edging is the color of the faculty or subject in which the degree was granted. Colors associated with various subjects are listed below.

Agriculture, Maize
Arts and Letters, White
Business, Commerce, Accountancy, Drab
Education, Light Blue
Engineering, Orange
Fine Arts, Brown
Journalism, Crimson
Law, Purple
Library Science, Lemon
Medicine, Green
Music, Pink
Nursing, Apricot
Philosophy, Dark Blue
Physical Education, Sage Green
Science, Golden Yellow
Theology, Scarlet

STUDENT AWARD RECIPIENTS

ACADEMIC EXCELLENCE AWARD SAMUEL MULICK

Samuel Mulick is a very engaged and enthusiastic engineering student. He approaches all courses with enthusiasm and consistently has been at the top of every class. Samuel was the top engineering student in the COS program this year. Because of his performance in class Samuel filled the role of Supplemental Instructor (SI) for ENGR 3 course (Materials Engineering) in spring 2021. He did a great job and helped many of the students succeed in the course while we were operating in remote mode during COVID. This spring, Samuel worked as the SI for the MATLAB programming class.

Samuel is amazing in all academic areas. He has passed 108 units at COS, completed the most rigorous curriculum at COS and kept a perfect 4.00 grade point average. Many of his course grades are A+. He has completed the entire upper-level math sequence (3 semesters of calculus, linear algebra, and differential equations), the entire 3-semester, calculus-based physics sequence (mechanics, electricity & magnetism, modern physics), the entire engineering sequence (introduction to engineering, graphics, statics, materials engineering, circuit analysis, and MATLAB programming), Computer Science 1 & 2, and Chemistry 1 & 2. These are just his major courses – he also passed all his GE with flying colors!

Samuel has been a regular participant and a great help at Friday Night Lab events where students can work on projects of their own design and choosing. He has worked on several projects, including mastering the 3D scanner. This spring he worked with another student on a machine learning/artificial intelligence system to identify empty parking spaces in real time. He works well on project teams by listening to input from all group members, contributing his own ideas and doing his share of the work. I see this same work ethic in the engineering and physics lab settings.

Samuel has been active in campus activities as treasurer and president of our Science, Engineering & Technology Association (SETA) Club. Samuel also participated in the on-site portion of the NASA Community Scholars program after completing the equivalent of an online course in planetary exploration. He went to NASA Ames Research Center in Mountain View for additional hands-on design and research experience. He also worked as a mechanical engineering intern for one summer at the Haagen-Dazs plant in Tulare, where he helped diagnose manufacturing problems and develop engineering solutions.

Samuel's enthusiasm and eagerness to work hard in the classroom and to participate in activities and events outside of the classroom bode well for a successful outcome and for his future. He has been admitted to the Materials Engineering program at Cal Poly San Luis Obispo for Fall 2022.

CAMPUS COMMUNITY SERVICE AWARD

CRISTINA CUNNIFF

Cristina embodies the values and characteristics of what it means to be a Giant and serve our campus and community. Cristina was lone club member of the Young Democrats Club and managed to keep the club sustained during the COVID 19 pandemic, even as many clubs went on a hiatus or were unable to maintain student participation.

Upon the return to in-person learning in the Fall, Cristina remained active as the Club President and led efforts to recruit club members during the club rush and multicultural club fair. Tabling at almost every campus club event, Cristina could be found registering students to vote, and informing them about deadlines to make their voices heard through the electoral process. She has also attended local city council meetings and informs her peers about upcoming community events or meetings. In addition to coordinating and participating in all of the campus club events Cristina looked to how the club could play a larger role in the community throughout the COVID 19 pandemic.

Partnering with the UFW Foundation Cristina organized several days where our club members volunteered at the Linnell Labor Camp in Visalia, participating Food Distribution events to serve local farmworkers and community members in need. Our club members spent hours providing food boxes, masks, hand sanitizers and information on where community members could receive their vaccinations and boosters in drive through and walk-up events. Loading boxes onto cars, checking folks in, and ensuring that community members had the supplies and food that they needed, Cristina and our club members truly embodied leadership and service to the community throughout this year.

Since beginning her journey in higher education, Cristina has excelled while still maintaining a devotion to her fellow students and our college campus at large. Her own academic accomplishments are complemented by her desire to share this knowledge with peers and her eagerness to help others. This is evidenced in her various roles in clubs on campus, in the community, as well as her efforts as a supplemental instructor for her fellow students. Cristina has served as a Supplemental Instruction (SI) Leader for her fellow classmates, devoting her time to tutoring and helping students who may require additional help or study guidance.

Always willing to contribute to the empowerment and success of others, Cristina is also a role model for students who are underrepresented in higher education. As a single mother who has persevered to obtain her degree, she has served as an excellent role model to not only her young son, but her fellow students as she has overcome personal challenges and struggles throughout her life. Cristina has been accepted into the very competitive nursing program at COS. She will be graduating with her associates degree for transfer (AA-T) in Math and Science this spring semester.

GIANT SPIRIT AWARD LLADIRA CISNEROS ESPINOZA

Lladira Cisneros Espinoza is the epitome of a true College of the Sequoias Giant. Lladira is a child of immigrant parents. She is the fifth daughter of seven siblings who came to this great country at the age of one. Being the child of a migrant family Lladira knows the value of an honest day's hard work. Her parents wanted more for their seven children and encouraged Lladira to attend college so she could have a better life. Lladira was able to attend Fresno State out of high school but had to withdraw to stay home and care for her ailing father.

Lladira went back to work in the fields to help support her family. When Lladira got married, her husband wanted her to attend college, but Lladira felt that she was "too old". Lladira continued to work in the fields where eventually she was severely hurt on the job and would have faced physical limitations if she continued to work in the fields.

After that injury her husband insisted that she attend college. Her husband continually asked her to apply for COS until she finally agreed. Lladira began COS at the age of 30 as a full-time mother of a 2-year-old daughter and a wife of a very supportive husband. Since starting COS in the Spring of 2019 Lladira also worked off campus at an aging facility for two years, was deemed an essential worker, and still managed to attend college during the pandemic. She earned a spot on the Dean's list her very first semester at COS.

Lladira has proven time and again that she is able to work well with students as a student worker in the AAC. Lladira is very patient, a hard worker, and has taken on the responsibility of training/mentoring her fellow student workers.

Lladira and her husband paid for her college expenses on their own without financial assistance for most of her time at COS. Lladira will go on to do great things and make a positive impact in our community. She will be an alumna that will make COS proud to call their own!
