

Curriculum Committee Subgroup Assignments

Curriculum Committee Subgroups review and vote on nonsubstantial changes to courses and programs on behalf of the committee (see CC Policy 20180404-1, Substantial & Nonsubstantial Changes). Groups are assigned based on volume of reviews and committee member preference. A survey is provided to faculty representatives annually in the Spring semester so that members may rank their preferred group assignments for the following year. Each faculty rep is assigned to 3-4 subgroups. The curriculum coordinator will assign groups based on ranking and committee need; members who do not complete the survey may be randomly assigned to subgroups, though an effort will be made to maintain prior assignments where possible. The following subgroup assignments will be effective for the 2025 – 2026 Academic Year.
