AP 4105: E, A student's last day of attendance in an online class is determined by one or more of the following
activities: opening, editing, or submitting an assignment online using the learning management system (LMS)
assignment feature, by email, or in person; participating in an online discussion; engaging in an exam either
online or in person; engaging in course activity beyond login (e.g., wiki, blog, group) as demonstrated by
record in LMS report.
In addition to LMS access records, monitoring and documenting student attendance in the class will include

Student Authentication ACCJC: Institutions which offer distance education or correspondence education must have processes in place through which the institution establishes that the student who registers in a distance educationcourse or program is the same person who participates every time in and completes the course or program and receives the academic credit. What mechanisms does the institution have for informing students and faculty about, and enforcing, its policies on academic honesty, including DE courses and programs? Does the policy appropriately ensue the protection of student privacy in the verification process?
AP 4105: D. Student Authentication Processes: Consistent with federal regulations pertaining to federal financial aid eligibility (Higher Education Act), the District must authenticate or verify that the student who registers in a distance education course or program is the same student who participates in and completes the course or program and receives the academic credit. The District will provide to each student, at the time of registration, a statement of the process in place to protect student privacy and estimated additional student charges associated with verification of student identity, if any.
Which of the accepted methods of student authentication will you use to ensure that the student participating in your class is the student who is registered for the class (per AP 4105)? (select all that apply) ☐ District-supported LMS log in with Banner ID ☐ Email

ACCJC - Evidence that DE courses are of sufficient content, breadth, and length to permit the student to learn and practice expected knowledge, skills, and abilities. By what means does the institution ensure that the students develop the listed skills in DE mode? How does the institution know that these means are effective? What criteria does the college use to assure that the required skill level of students in DE courses and program meet collegiate standards and rigor? How effectively does DE facilitate student learning? Is the level of effectiveness for facilitating student learning different from traditional delivery modes?
