 Multiple choice tests
 Problem solving assignments or activities
 Problem solving quizzes or exams
 Project
 Short answer quizzes or exams
 Skill demonstrations
 Written essays or extended papers

Course Topics:

Course Topics	
1	Importance of record keeping
2	Principles of accounting: single-entry accounting, double-entry accounting, accrual vs. cash basis accounting, and the accounting equation
3	Accounting cycle
4	Financial statements: the income statement, balance sheet, statement of owner's equity, statement of cash flows, other financial reports and analysis of financial statements
5	Asset valuation and depreciation
6	Liabilities and equity: calculating simple interest loans, transactions involving loans and loan payments, determining current principle loan balances, determining interest payable, and determining net worth
7	Practical exercises in developing financial statements and using computer applications as a tool for financial analysis

Course Objectives:

Course Objectives	
1	Define the uses of agricultural records.
2	Explain the accounting cycle.
3	Define common agricultural accounting terms.
4	Differentiate between cash and accrual accounting systems.
5	Design a chart of accounts for an agricultural business.
6	Demonstrate the principles of accrual accounting by opening, entering transactions, and closing a set of accounting records.
7	Create a balance sheet and income statement.
8	Calculate and analyze ratios of solvency and liquidity for an agricultural business.
9	Properly value asset and liability accounts.

Course Outcomes:

Course Outcomes	
1	Students will be able to calculate depreciation for an agricultural fixed asset.
2	Students will be able to use manual accounting methods to analyze the financial performance and financial position of an agricultural business.
3	Students will be able to use QuickBooks to enter and analyze financial transactions.

Assignments:

Assignment Type:	Details
Reading	Students will be required to read assigned chapters covering class content from the text and be prepared to discuss the reading during class sessions.
Writing	Given a set of financial statements students will have to explain the financial position and performance of an agribusiness.
Homework	Given a list of financial events for an agribusiness students will have to prepare the appropriate journal entries to record the financial transactions.
Lab	Students will utilize the appropriate software to record financial transactions and generate the necessary financial reports and statements.

Textbooks or other support materials

Resource Type:	Details
Books	Wheeling, Barbara. Introduction to Agricultural Accounting. Cengage Learning.
