Results: The committee met eight times over the course of the academic year and successfully completed routine business. All committee documents, including minutes and agendas, are available on the committee website.

4 committee members responded to the governance survey. Of those respondents, all agreed that the committee met its roles and responsibilities, that the workload of the committee was appropriate, that the committee was effective in completing initiatives, the committee stayed on task, adhered to Robert's Rules, and that adequate resources were available (100%). Few comments were provided, but those given suggest aligning the committee's work next year with District planning efforts, and continuing to work on implementation of Nuventive Improve.

The committee will continue to conduct its standard business, but has done so effectively for this year.
