

Institutional Planning & Effectiveness Committee Standing Report

Date

October 8, 2020

Meeting(s) Report

Survey responses from the Strategic Plan Summit have been aggregated by the Research Office and those reports were made available to the Task Forces by Friday, October 9. Each task force will develop objectives and rationales for the new Strategic Plan through the month of October.

The Committee discussed updated language that had been missed while revising the Master Plan Writing Timeline in the previous year. The visual timeline had been updated, but the narrative had not been updated to match. The edited language will be proposed for changes to the IPM in the following summer.

Recommendation(s) for Possible Action Items

None
