Meeting(s) Report

At the March 25 IPEC meeting, the committee:

- Reviewed the timeline for finalizing the 2021-2025 Strategic Plan draft. The draft plan with supporting timeline documents was submitted to DGS and Academic Senate for review on March 25th. First and second reads of the draft by DGS and the only read by Academic Senate are to take place in April, with recommendation to the President/Superintendent occurring at the April 27th DGS meeting. If approved, the President/Superintendent will present the final draft to the Board of Trustees at their May 10th meeting.
- Discussed possible changes for drafting future Strategic Plans, including more binary actions, possibly opening a way for adding actions mid-cycle, and ensuring equitable language for goals, objectives, and actions.
- Discussed feedback to be given at joint meeting between IPRC, IPEC, Outcomes and Assessment Committee and Budget Committee. Several IPEC members voiced an understanding of how IPEC affects Program Review, but an uncertainty as to how IPRC's work affects IPEC's work. It was suggested that the intention of this link may need to be further delineated in future iterations for the COS planning documents.

Recommendation(s) for Possible Action Items

- Present the final draft of the Strategic Plan to DGS members and solicit feedback from their constituents.
