

Institutional Planning & Effectiveness Committee Standing Report

Date

April 27, 2023

Meeting(s) Report

At the April 27th meeting, IPEC discussed the continued lack of response from faculty to the need for representatives for both the committee and the Master Plan Task Force. The faculty co-chair explained that there are widespread faculty vacancies on committees at the moment and indicated that faculty may be hesitant to volunteer for governance groups because there is widespread disillusion with the current participatory governance process among the faculty body. The committee also began planning for the Master Plan Task Force (MPTF) Training and the Open Forum, both to be held in September. The committee also reviewed district-wide feedback on the issues constituents felt were most pressing for their departments and the District as a whole. This feedback will be forwarded on to the MPTF members in the Fall.

After the conclusion of the regular meeting, the committee participated in a voluntary “Social Justice & Anti-Racist Campus Check-In”, per the Chancellor’s Call to Action.

Recommendation(s) for Possible Action Items

None
