

Standing Reports District Governance Senate

Forms are due to Meghan Tierce by 4:45 p.m. on the Wednesday prior to District Governance Senate.

Date: April 29 and May 6, 2025 - Institutional Program Review Committee

Standing Report:

IPRC held its annual Joint Committee Meeting on April 29th. Representatives from IPEC, Budget Committee, Outcomes and Assessment Committee (OAC, and Instructional Council (IC) provided feedback on how the changes to the Integrated Program Review process and Nuventive software was impacting their committee work.

Key Insights:

IPEC: No current data gaps were noted. Reminded IPRC that the new Master Plan goals and objectives will need to be incorporated in Nuventive.

OAC: Commended reported improvements, and requested best practice examples of PR units disaggregated data to be referenced in the ACCJC Core Inquiry.

Budget Committee: Expressed concern about weak connections between budget requests and outcomes, leading to the need for further training to address the vagueness in requests.

Instructional Council: Noted improvement in quality but noted the misalignment between the budget requests and Dean reviews. Advocated for early fall training for managers.

On May 6 IPRC reviewed the feedback from the joint meeting, which will lead into IPRC's 2025/26 initiatives.

Discuss the need to improve fall 2025 trainings and ensure that units clearly connect requests to outcomes and institutional goals.

Discussed the committee's 2024/25 End-of-Year report.

Recommendation(s) for Possible Action Items (if any):
