

*Institutional Program Review Committee*  
*Standing Report*  
**District Governance Senate**

---

**Date: May 3, 2022 - Institutional Program Review Committee**

**Meeting(s) Report**

This was IPRC's final meeting for the 2021-2022 year.

The Committee went over the feedback and key points that were provided during the joint-committee meeting with the IPEC, the Budget Committee, and Outcomes & Assessment Committee.

Finalized IPRC 2021-2022 initiatives:

**Initiative 1:** The data shows that more of the program reviews included disaggregated data and the use of the dashboards than the previous years.

**Conclusion:** IPRC accomplished this initiative by noting a 16 point increase in programs using disaggregated data in their PRs, from 43% to 59%.

Though, we are proud of the percentage difference from the previous year, IPRC believes we can increase this percentage.

**Initiative 2:** Finalizing the infographic. Training video completed. Holding off on any more materials due to the fact TracDat might be replaced.

**Conclusion:** The infographic is in its final stages and should be completed before the start of fall 2022.

IPRC reviewed committee task timeline, which primarily consists of Program Review trainings:

- Program Review spring training consisted of Friday PR office hour support, held every from April 22<sup>nd</sup> – May 13<sup>th</sup>.
- IPRC will hold two (2) PR trainings during the summer in June and July, specifically for Student Services PRs.
- Fall PR training will begin the afternoon after Convocation and continue on every Friday until September 9<sup>th</sup>.
