In addition to the Student Success Metrics, the LaunchBoard, a statewide data system supported by the California Community Colleges Chancellor's Office and hosted by Cal-PASS Plus, provides data on progress, success, employment, and earnings outcomes for California community college students. The LaunchBoard brings together multiple data sets to provide a more holistic view of students and their progress through educational institutions and into the workforce. The LaunchBoard section of the Giant Fact Book contains data provided on the Community College Pipeline, Adult Education Pipeline, and Strong Workforce Program Dashboard.

- **The Community College Pipeline** offers insight on phases of students' journeys through community college with information on college offerings, student characteristics, milestones, success, employment, earnings, and labor market information.
- **The Adult Education Pipeline** offers insight into progress and outcomes for K- 12 and community college adult education participants, including outcomes for adult education students who transition into credit-bearing post-secondary programs and their employment outcomes.
- **The Strong Workforce Program Dashboard** provides annual results, disaggregated data, and benchmarking information for metrics associated with the Strong Workforce Program and students enrolled in career and technical education (CTE) programs.

Users are highly encouraged to visit the CCCCO and Cal PASS-Plus LaunchBoard to explore the most current data disaggregated by age group, gender, race/ethnicity, and economic status (as available), as well as comparisons between our District and Statewide, Macroregion, and Microregion data.
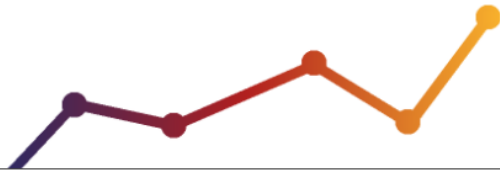

Community College Pipeline

Community college offerings, student characteristics, milestones, completion, and employment outcomes to support program review and planning.
